

ENVIRONMENTAL POLICY

Basic Philosophy

We recognize that the preservation of the global environment is one of the most urgent issues for all human beings. We are committed to affirmatively taking necessary action to address substantial environmental concerns relating to environmental protection in every aspect of our business.

Basic Policy

We undertake to reduce environmental influence throughout our activities, international & domestic handling of all products and services. Under our basic philosophy, we commit to act on the following principles.

1. We pursue our contribution on environmental protection and pollution prevention as a concerted effort on the part of our entire organization.
2. Understanding the environmental influence of our activities, products, and services, we set our objectives and targets, which are technically and economically attainable. We actualize continuous improvement of our environmental management system by annually reviewing the achievements along with our environmental policy.
3. We observe applicable legal and other agreement requirements in addition to our internal company rules and regulations.
4. We accept the challenge to realize environmentally efficient administration and waste reduction in our activities along with energy and natural resources conservation.
5. In collaboration with our business partners, we aggressively promote the handling environmentally friendly products and services.
6. We exercise appropriate administration of chemical substances (if any) comes in our operation.
7. Our Environmental Policy and other relevant information are communicated to all persons working for and on behalf of KOHINOOR Air Conditioner & Refrigeration Parts, to increase their awareness concerning environmental protection.
8. We make our Environmental Policy available to the public.
